

16. 7. 2008

"The European Curling Tour (WCT-E) announces the start of an elite Junior Curling Tour. The tour is designed for the best European junior teams to test their skills against their direct competitors on a regular basis in international competition. We have many top junior teams wanting to play in the WCT-E events every year, but for obvious reasons they can't always be accommodated. This tour will be a series of competitive events throughout the season and the 2 winners, men's and women's, will have a spot reserved for them at each of the following seasons WCT-E events.

As with the men's and women's WCT-E events, teams will collect points at all of the events for each of the top 8 finishes. These points will be accumulated for an over all ranking. There will be a page on the WCT-E website(in development) dedicated to the juniors with tour information, rules, event information, team information, international points and ranking etc

EJCT Chairman, under the Supervision of the WCT-E, will be Sune Frederiksen (Czech/Denmark). In his committee at the moment are Ole Ingvaldsen (Norway) and Rhona Martin (Scotland) with one or 2 more additions coming in the near future. This Seasons events will take place in:

- Oslo 24th-26th October 2008
- Inverness 14th-16th November 2008
- Hamburg 16th-18th January 2009

Further expansion and development of the EJCT will take place in the upcoming seasons.

We hope this will continue to help the development of young teams and provide a fluid stepping stone as they go on to play in International Men's and Women's competition."
